The Customer's right to use such Third Party Components as part of, or in connection with, the SDK is subject to any applicable acknowledgements and license terms accompanying such Third Party Components, contained therein or related thereto. If there is a conflict between the licensing terms of such Third Party Components and this Agreement, the licensing terms of the Third Party Components shall prevail in connection with the related Third Party Components. Such Third Party Components are provided on an "AS IS" basis without any warranty of any kind and shall be subject to any and all
